SAFE. PERFECT. PACKED.

DEBASEAL™ container seals *Extremely reliable container seals, with or without anti-spin mechanism as required, to meet the very highest security demands. For securely sealing containers, warehouses and vehicles.*

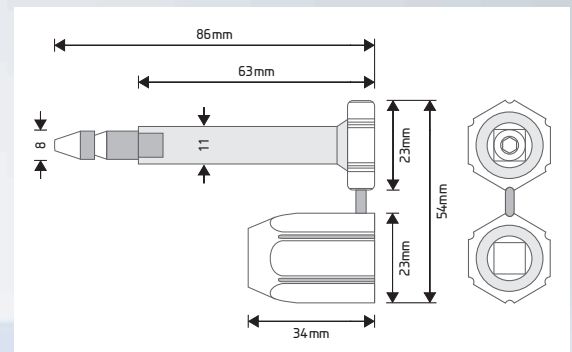

Overview of features:

- For sealing 20/40-foot shipping & rail containers (ISO containers), warehouses, vehicles

DEBASEAL™ *container seals* / DEBASEAL™ *anti-spin container seals*

certification: C-TPAT (Customs-Trade Partnership against Terrorism): From the year 2012 on, ISO containers have had to be sealed with a high-security seal conforming to the newest ISO/PAS 17712-2013 standards in order to receive preferential treatment in US American ports. UK customs group 1.

- Easy to attach with just one hand thanks to inbuilt spring. Bolt cutter required for removal.
- Can be closed and sealed simultaneously
- Extremely reliable and secure
- Unique, consecutive numbering. Double labelling on bolt and body of seal.
- Resistant to wear thanks to direct lasering
- Plastic coating clearly indicates any attempt at tampering, and effectively prevents corrosion
- Patented closure mechanism
