

**DEBASAFE™ security bags**  
Dye-permeable security bags  
made of fleece fabric.

DEBATEX™ form part of a non-incendiary CIT system. This CIT system works exclusively on the basis of inks which dye the contents of the bags if these are opened by an unauthorised person. The pouch part of these bags consists of a micro-perforated fleece fabric which is specially designed to absorb and transport fluids (ink) to the inside of the pouch, discolouring banknotes and rendering them unserviceable.

DEBATEX™ security bags – like our standard DEBASAFE™ range – feature the DEBATAPE **high plus** closure system, thus offering maximum protection against tampering. DEBATEX™ has an area of 150 mm which is made of film. This area can be printed with customer-specific information such as consecutive numbering, barcode etc.

Pouch of bag made of non-woven fleece fabric

Non-incendiary transport case contents of bag reliably dyed

once triggered by tampering

**DEBASAFE™ security bags**  
Systematic security bags  
– tamper-evident packaging.

We take the environment seriously!  
For this reason, we use only environmentally-friendly polyethylene in the production of our DEBASAFE™ products.

DEBASAFE™ security bags are used whenever tamper-evident transport is crucial. Around the globe, CVIT companies, banks and chain stores use our security bags for transporting money. The police forces, customs and legal authorities etc. use DEBASAFE™ to secure and store objects, confidential documents, evidence, and material samples. The comprehensive range of security features – some of which are standard, and some of which can be individually added – are what make the DEBASAFE™ security bag system so special.

4 types of closure  
Select from four different versions according to your requirements

**NEW: DEBATAPE high plus**

Premium sealing strip for the most exacting demands. Includes heat indicator. Thanks to the all-round protection, any attempt at tampering is reliably displayed.

**DEBATAPE plus**

Sealing strip for exacting demands. With heat indicator. Any attempt at tampering is displayed.

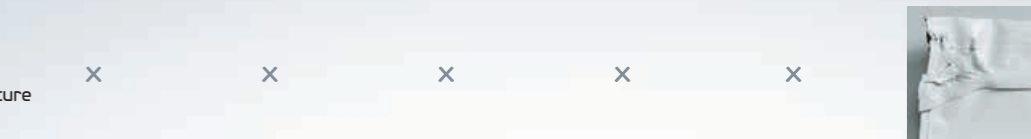

**DEBATAPE**

Sealing strip for the tamper-evident transport of money or documents.

**Permanent closure**

Particularly suited to day and night safes, or for when only 2 persons are involved in handling. Secure from mechanical tampering.

**Extensive range of standard products**

The standard range of DEBASAFE™ security bags caters to all conventional cash collection practices:

- Bags for banknotes, in a range of sizes, printed accordingly for the application in question
- Particularly sturdy bags for coins, with handles
- Coded with code 39 or CashEDI (German Federal Bank procedure)

**You'd like a product made to order? No problem!**

DEBASAFE™ security bags are "made in Germany". Besides our standard range, our plant in Bruchsal is happy to manufacture customised security bags. You can specify size, print, closure and further special features - multiple tear-off receipts, for example, or an outer document pouch for freight papers or RFID tag. We'll make sure you receive your optimised, customised order right on schedule and in top quality.

Up to 8 colour flexo-printing

Multiple tear-off receipts

Extra document pouch for freight papers

RFID tag (optional)

**DEBASAFE™ security bags**  
Systematic security bags for  
secure and safe transport.

**DEBASAFE™ security bags**  
Our range of stock

With numerous security features and a wide range of versions for different applications, the standard range of DEBASAFE™ security bags is highly diverse. Our standard range includes numerous different versions.

We are also happy to make products to order and help you develop a tailor-made solution for your requirements - with almost infinite possibilities.

red masking tape for accurate closure

security overprint under the sealing strip, with water soluble ink

standard: code 39 or CashEDI (German Federal Bank procedure). Other coding optional.

sturdy double shrink seal with micro security overprint

transparent or opaque LDPE film. Available in various quality grades to meet differing requirements,

with one or more tear-off receipts (optional) - to be torn off along a perforated line

DEBATAPE high plus
