

A solid start to your career with vocational training at **Debatin**.

DEBATIN[®]
SAFE. PERFECT. PACKED.

Vocational training placement **Warehouse logistics professional** (m/f)

Diversity and responsibility.

Anton Debatin GmbH specialises in innovative, tamper-evident packaging solutions for transport, mail delivery and logistics. Founded in 1923, this medium sized company is based in Bruchsal. With locations in France and the United Kingdom, as well as international license partners, the company today is a global leader in the industry. We focus on being responsive to our customers, producing quality products and developing path-breaking innovations. We also focus in equal measure on protecting the environment, treating natural resources with care and respect, and creating a healthy work-life balance for our employees. Because we're very aware that how we act today has an impact on the future – which is why we need to start now to consider future generations. We attach great importance to offering young people vocational training opportunities, because we want to give our trainees the best possible start to their professional career.

Vocational training placement

The vocational training course for warehouse logistics professionals (m/f) lasts for 3 years and is a dual system, i.e., trainees alternate between the workplace and college. College classes are held part-time, i.e., trainees spend 2 days a week in college (at the Friedrich-List School in Karlsruhe).

Our expectations

- Hauptschulabschluss (basic certificate of secondary education with qualification), Realschulabschluss (secondary school certificate)
- Interest in technology
- Physical fitness
- Interest in IT
- Motivation, ability to take the initiative

Your tasks

- Receipt of incoming goods
- Inspection of deliveries
- Storage of deliveries
- Compiling deliveries and delivery schedules
- Loading and dispatching deliveries
- Support in optimising logistics
- Monitoring stock
- Controlling the economic efficiency of warehouse processes on the basis of key figures
- Ensuring smooth travel of goods from the warehouse to the various company divisions
- Determining material requirements subject to manufacturing plans and work schedules
- Sourcing the necessary raw materials and supplies

Career advancement

As a warehouse logistics professional, you can advance your career in a variety of ways. Once you've qualified, you can study at university level for a BA degree in logistics or business economics. Alternatively, you could take the exam to become a master craftsperson in logistics or a qualified logistics & materials management professional.

You're interested to know more, and would like to embark on an exciting vocational training course with excellent opportunities for career advancement? If so, we look forward to receiving your application!
