

DEBAQUICK™

Single-layer self-adhesive document pouches.  
Less film, less glue.

**DEBATIN**<sup>®</sup>  
SAFE. PERFECT. PACKED.

We take the environment seriously!

For this reason, we use only environmentally-friendly polythene in the production of our DEBAQUICK™ products. Polythene can be recycled, does not contaminate groundwater, and does not emit poisonous gases when burned.

**DEBAQUICK™** is the name we've given to our new, innovative self-adhesive document pouches for all types of freight papers. DEBAQUICK™ self-adhesive document pouches play their part in protecting valuable resources: thanks to the single-layer design, DEBAQUICK™ pouches cut down on the amount of polythene used by almost 50%. In addition, by reducing the gummed area at the edges, the pouches use far less adhesive than those which are gummed along the entire flap. By cutting down so significantly on the use of raw materials, there is also less waste – which is not only good for the environment, but also helps to reduce costs. The single-layer design of DEBAQUICK™ is quite new. To be precise, this is not so much a pouch as a film which is stuck straight on to the package – a box, for example – around the delivery note, invoice etc. It's surprisingly easy and fast to attach: the consignment notes can be pushed into one half of DEBAQUICK™ via the divided protective paper on the rear. Whilst DEBAQUICK™ itself is positioned directly on to the box or parcel, the two protective papers are removed one after the other, leaving the shipping documents attached directly to the box and covered only by one secure layer of film. From the outside, the result looks just the same. But inside, the unnecessary layer of film between the shipping documents and the box – and the associated adhesive – have disappeared.

**Overview of features:**

- Quick and easy to use
- Environmentally friendly, low-cost alternative to conventional self-adhesive document pouches
- Available with green print on request

**Quick and easy:**

1. Slide the consignment notes between the two halves of the protective paper.

2. Affix in the desired position and remove the first protective paper.

3. Then peel off the second protective paper.

4. Press down firmly. Finished!

**Our standard range**

Dimensions ext. (int.) in mm	Adhesive closure / item no.			Units
<b>C6</b> W 200 x H 140 (W 175 x H 120)	 523 370	 523 184	 523 181	4 x 250 pcs
<b>Long</b> W 270 x H 140 (W 245 x H 120)	 523 371	 523 182	 523 192	4 x 250 pcs
<b>C5</b> W 270 x H 200 (W 245 x H 180)	 523 372	 523 183		4 x 250 pcs
