

DEBASHRINK™
*Ultra-thin and
totally tear-proof.*

DEBATIN®
SAFE. PERFECT. PACKED.

We take the environment seriously!

For this reason, we use only environmentally-friendly polyolefin in the production of our DEBASHRINK™ products. Polyolefin can be recycled, does not contaminate groundwater, and does not emit poisonous gases when burned.

DEBASHRINK™ Highly transparent, glossy, and mechanically strong, DEBASHRINK™ polyolefin ultra-thin shrink film is ideal for use in the high security banking industry. The crosslinked, irradiated film is available in various thicknesses, and can be used with all conventional equipment. DEBASHRINK™ flat and semi-tubular films reliably shrinkwrap banknotes, coins and paper reams. They have excellent sealing and shrinking properties, and are 100 % food-safe and recyclable.

All the benefits at a glance:

- Polyolefin ultra-thin shrink film with or without pre-perforation, highly transparent, glossy and luminous
- Crosslinked, irradiated film, premium film, hot slip, extremely strong seams, extremely tear-proof and puncture-resistant
- High percentage of shrinkage, up to approx. 88 %
- 5-ply films
- 100 % food-safe and recyclable
- Available as semi-tubular film or flat film
- Excellent processing characteristics
- Complies with all relevant certifications and standards: ISO 9001, ISO 14001, ISO 22000 HACCP, FDA, consecutive migration tests, Rentokil pest control
- Can be printed using up to 9 colours
