

DEBASAFE™ mail
Mailing bags for postal use.
Better safe than sorry!

DEBATIN®
SAFE. PERFECT. PACKED.

DEBASAFE™ mail Mailing bags by DEBATIN are ideal for sending confidential documents or valuables by post. Made from 100% polythene, these mailing bags are sealed with a blue DEBASAFE™ tamper-evident sealed closure. If an unauthorised person opens, or attempts to open the bag, this is displayed. Each DEBASAFE™ mail mailing bag has its own barcode and number. In addition, the welded seams have a security overprint. DEBASAFE™ mail mailing bags are made of strong, co-extruded LDPE film. The interior is black, and thus fully opaque. The pouch of the bag is burst- and tear-proof, waterproof and yet extremely light. Quick and easy to use: Fill the bag, peel the protective strip off the sealing tape, and seal the bag. The printed address field can easily be filled in with ballpoint pen or felt tip pen. DEBASAFE™ mail mailing bags are very versatile, and are used by banks, courier services, local authorities, industrial companies, lawyers, notaries, hospitals, and many others.

Overview of features:

- DEBATAPE tamper-evident sealed closure reliably shows unauthorised tampering
- pouch of bag made of opaque, particularly tear- and waterproof polythene
- with barcode and numbering
- security overprint along the particularly tear-proof double-shrink seal
- extremely light, saving on postal charges
- 100% recyclable

Our standard range

Article no.	Format (exterior) in mm	No. in box
400 040	C5+ W 175 x H 250 (165 x 225)	500 pcs (20 x 25 packs)
400 041	C4+ W 235 x H 350 (225 x 325)	500 pcs (20 x 25 packs)
400 042	B4+ W 255 x H 390 (245 x 365)	500 pcs (20 x 25 packs)

Reliable protection against unauthorised opening:
The DEBATAPE sealing tape registers when the closure has been opened.
