

DEBASAFE™ **agriculture**
Security system for reference samples
–tamper-evident packaging.

DEBATIN
SAFE. PERFECT. PACKED.

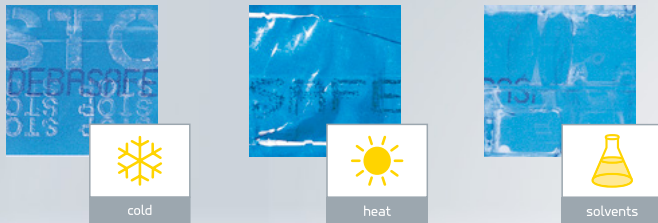

DEBASAFE™ **agriculture** security bags meet all global standards for CVIT transport, day in, day out. DEBASAFE™ **agriculture** is the latest and ideal security system for reference samples in the food and fodder industries, and for wherever samples need to be stored. The blue, self-adhesive sealing strip seals your sample reliably and totally securely, protecting it against all tampering. Any attempt to open the bag will be displayed. Consecutive numbering and tear-off receipts prevent your samples from getting mixed up. Easy to handle, this product also boasts various features offering an extremely high level of security. The bags can also be made to order to meet individual customer requirements.

Overview of features:

- pouch of bag made of transparent LDPE film, opaque version optionally available
- extremely sturdy double-shrink seal
- self-adhesive DEBATAPE sealing strip
- tear-off receipt, easy to remove along the perforated line
- barcode
- consecutive numbering on bag and receipt make each bag unique
- can be labelled easily using a ballpoint pen
- up to 6 colour flexo-printing upon request for customised designs
- security bags are available with multilingual print

DEBATAPE tamper-evident sealed closure

Your reference sample is not only safe from being mixed up. Any attempt at tampering is displayed. Mechanical, thermal or chemical tampering - DEBASAFE™ offers reliable protection.

Tear-off receipt

Barcode and consecutive numbering

Standard or customised!
