► **DEBAsAFE®** Air transport security - DEBATIN offers a wide selection of packaging, specially designed for virtually all areas of air transport which are subject to high security levels. **DEBAS.T.E.B.®**, globally accepted security bags for the transport of fluids, gels and aerosols, have proved their worth over many years, particularly in the area of duty-free shopping. Individual **carrier bag** designed for airport shops. **Safe bags** for transporting cash or valuables, with extensive security features including RFID tags on request and minimum order quantity. **Protective bottle nets** for the safe transport of glass bottles. **Security labels**, which reliably display any attempt at tampering, for sealing receptacles, doors etc. **Security seals** for sealing trolleys, containers etc.

DEBASAFE® Air transport

Extensive portfolio of products for safe and secure air transport.

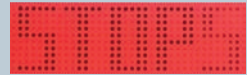

DEBAS.T.E.B.® Security bags for air transport Secure and smooth transit. Globally approved for fluids, gels, and aerosols.

All fluids, gels, and aerosols have to be placed in sealable, transparent security tamper-evident bags once a passenger has bought such articles in a duty-free shop at the airport after passing the security checkpoint.

DEBAS.T.E.B.® (Security Tamper Evident Bag) meets all requirements dictated by the ICAO (International Civil Aviation Organisation) and the ETRC (European Travel Retail Council). DEBAS.T.E.B.® You will find the fixed defined sizes below. No special requirements possible.

DEBATIN is an officially listed manufacturer at ICAO.
