

DEBASAFE® *security bags*
Systematic security bags
– tamper-evident packaging.

DEBATIN
SAFE. PERFECT. PACKED.

www.blauer-engel.de/uz30a

► **DEBASAFE**® *security bags* are used whenever tamper-evident transport is crucial. Around the globe, CVIT companies, banks and chain stores use our security bags for transporting money. The police forces, customs and legal authorities etc. use DEBASAFE® to secure and store objects, confidential documents, evidence, and material samples. The comprehensive range of security features – some of which are standard, and some of which can be individually added – are what make the DEBASAFE® security bag system so special.

DEBAsAFE® security bags

*Dye-permeable security bags
made of fleece fabric.*

DEBATEX® form part of a non-incendiary CIT system. This CIT system works exclusively on the basis of inks which dye the contents of the bags if these are opened by an unauthorised person. The pouch part of these bags consists of a micro-perforated fleece fabric which is specially designed to absorb and transport fluids (ink) to the inside of the pouch, discolouring banknotes and rendering them unserviceable.

DEBATEX® security bags – like our standard DEBAsAFE® range – feature the DEBATAPE **high plus** closure system, thus offering maximum protection against tampering.

DEBATEX® has an area of 150 mm which is made of film. This area can be printed with customerspecific information such as consecutive numbering, barcode etc.

Pouch of bag made of non-woven fleece fabric

Non-incendiary transport case contents of bag reliably dyed

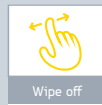

once triggered by tampering

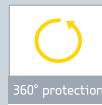

4 types of closure

Select from four different versions according to your requirements.

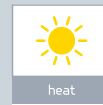

Wipe off

360° protection

cold

heat

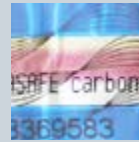

solvents

manipulation

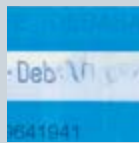

NEW: DEBATAPE high plus

Premium sealing strip for the most exacting demands. Includes coloured heat and cold indicator. Thanks to the all-round protection, any attempt at tampering is reliably displayed.

DEBATAPE plus

Extensive range of standard products

The standard range of DEBASAFE[®] security bags caters to all conventional cash collection practices:

- Bags for banknotes, in a range of sizes, printed accordingly for the application in question
- Particularly sturdy bags for coins, with handles
- Coded with code 39 or CashEDI (German Federal Bank procedure)

You'd like a product made to order?

No problem!

DEBASAFE[®] security bags are "made in Germany". Besides our stand-ard range, our plant in Bruchsal is happy to manufacture customised security bags. You can specify size, print, closure and further special features - multiple tear-off receipts, for example, or an outer document pouch for freight papers or RFID tag. We'll make sure you receive your optimised, customised order right on schedule and in top quality.

Up to 8 colour flexo-printing

Multiple tear-off receipts

Extra document pouch for freight papers

RFID tag (optional)
