

DEBAsAFE® *automotive*
Packaging solutions designed specially
for logistics in the automotive industry.

DEBATIN
SAFE. PERFECT. PACKED.

► **DEBAsAFE**® *automotive* Only original spare parts are guaranteed to be fully functional and safe. Protect yourself and your customers from counterfeits – pack your original spare parts in DEBAsAFE® automotive tamper-evident plastic mailing bags to guarantee safety and authenticity. Protect original spare parts by storing them in security bags with tamper-evident sealing strips to stop them from “disappearing”. Small parts can be enclosed in grip seal bags.

Overview of features:

- extremely sturdy double-shrink seal
- available with handle upon request
- up to 6 colour flexo-printing into the welded seam area for recognising attempts at tampering, or for customised designs
- barcode and coding on request
- bag sizes on request
- optional available in Blue Angel film quality
- solutions for disposal of bags available upon request
- available on request from 10.000 pieces

DEBATAPE[®] *high plus* tamper-evident sealed closure.

Won't give substandard counterfeits a chance. Any attempt at tampering is displayed. Mechanical, thermal or chemical tampering -

DEBASAFE[®] *automotive* offers reliable protection.
